About Biotech Showcase (Innovation - Opportunity - Collaboration)

Now in its fifth year, Biotech Showcase will feature corporate presentations by 195 innovative life science companies to an audience of public and private investors, business development executives and professional advisors who are interested in investment opportunities and collaboration. Biotech Showcase takes place during the week of one of the most important healthcare investor conferences, which annually attracts thousands of healthcare and life science business executives to San Francisco in a venue located close to the center of action. Public and private investors are *always* invited to attend on a complimentary basis. Biotech Showcase was co-founded by Demy-Colton Life Science Advisors and EBD Group, two organizations that have a long and successful history building programs that meet the needs of the life science industry. About Q Therapeutics, Inc.

Headquartered in Salt Lake City, Utah, Q Therapeutics, Inc. is a fully reporting, non-trading company, engaged in developing adult stem cell therapies to treat debilitating diseases of the central nervous system. The Company's first product, *Q-Cells*[®], is a cell-based therapeutic intended to restore or preserve normal activity of neurons by providing essential support functions that occur in healthy central nervous system tissues. *Q-Cells* may be applicable to a wide range of central nervous system diseases, including demyelinating conditions such as multiple sclerosis, transverse myelitis, cerebral palsy and stroke; as well as other neurodegenerative diseases and injuries, such as ALS (Lou Gehrig's disease), spinal cord injury, Parkinson's disease and Alzheimer's disease. Q Therapeutics' initial clinical target is ALS, with a first IND submission expected in 2013. For more information, visit www.qthera.com.
