A replay of the webcast will be available on Synergy's website for approximately 180 days following the conference.

About Synergy Pharmaceuticals Inc.

Synergy Pharmaceuticals (NASDAQ: SGYP) is a biopharmaceutical company focused on the development of novel therapies to treat gastrointestinal (GI) diseases and disorders. The company's proprietary platform technology is based on the naturally occurring human GI hormone – uroguanylin - a key regulator of normal GI physiology. Synergy has created two unique analogs of uroguanylin - plecanatide and SP-333 – both designed to mimic the hormone's natural activity and target a variety of GI conditions. Plecanatide is currently in phase 3 clinical development for chronic idiopathic constipation and irritable bowel syndrome with constipation. SP-333 has successfully completed a phase 2 study in patients with opioid-induced constipation and is presently being evaluated for the treatment of ulcerative colitis.
