but **pay little!***

Each COURTSync license includes:

- **COURTSync** – “PANIC BUTTON ALERT” installed on all court computers and linked directly to the geographically closest officers in the event of a threat. ¹Key employee participation in a community of officers and courts, sharing information to protect one another.
- **Mobile Web App** – Mobile device “PANIC BUTTON ALERT” linked directly to the geographically closest officers in the event of a threat. Installed on all employee’s mobile device.
- **Warrant Notification and Clearing** – Real-time, warrant warning to any of the thousands of Texas officers using COPSync. Automated warrant pop-up as officers conduct traffic stops.

¹Additional charges apply for more community participant installations. Ask your Sales Rep for more details.

Upgrade technology, safety and efficiency with COURTSync

Information Sharing – for enhanced court technology

- Silently communicate with officers about events happening live within the court, by using a real-time crisis communication messaging tool.
- Immediately identify persons who may be a threat to the court, through CJIS queries and advanced people and vehicle searches from information added by officer and court subscribers.
- Access civil process issuances and violations along with advanced people searches.
- Create and automatically receive Attempt to Locate and BOLO warning alerts from a database shared among courts and law enforcement.
- Verify deferred disposition compliance or violation with CJIS query returns and the statewide COPSync citation history database.

Safety and Security – for enhanced court security

- Turn every Microsoft Windows computer in the court into a panic button alert threat notification device.
- Outfit your employees with a mobile installed threat alert panic button. (Mobile Web App.)
- Broadcast threat notifications directly to the closest officers in their patrol cars.
- Inform the 9-1-1 dispatch center of threat notifications automatically simultaneous with informing responding officers.
- Enable unified communication among the court, officers, 9-1-1 dispatch center, EMS and Fire.

Warrant Clearing – for enhanced court efficiency

- Provide thousands of officers real-time access to your courts’ warrants 24/7/365.
- Enable road-side warrant warning or warrant clearing during traffic stops.
- Expand your warrant clearing staff to include the thousands of COPSync officers across the Texas.

Warrant clearing by collecting a payment via. credit card will be available as a future enhancement.
