DecisionPoint Announces Acquisition of Software Vendor APEX Systems Integrators Inc.

Transaction Expected to Be Accretive to Earnings in FY2012; Combination Accelerates Revenue Shift to Higher Margin Software and Professional Services

FOOTHILL RANCH, CA -- (MARKETWIRE) -- 06/05/12 -- DecisionPoint Systems, Inc. (OTCBB: DPSI), a leading provider and integrator of Enterprise Mobility, Wireless Applications and RFID solutions, today announced that it has acquired APEX Systems Integrators Inc., based in Burlington, Ontario, Canada ("APEX"). The purchase price was \$5.0 million in cash at closing. In addition, there is an earnout and bonus capped at an additional \$8.5 million, which is dependent upon future performance through July 31, 2015. The transaction is expected to be accretive to DecisionPoint's fiscal year 2012 earnings by approximately \$0.15 per share on an annualized basis.

APEX, a leading provider of wireless mobile work force software solutions, will operate as a wholly owned subsidiary of DecisionPoint. Don Dalicandro, APEX CEO, will continue in his role, reporting to Nicholas Toms, DecisionPoint's Chairman and Chief Executive Officer. Mr. Dalicandro will also join the company's Board of Directors.

"The strategically important acquisition of APEX will further shift our revenue mix to higher margin software and professional services by between 4 to 6 percentage points resulting in an expected material improvement in our average gross margins of between 2 to 4 percentage points," said Nicholas Toms, CEO of DecisionPoint. "The APEX software product set fits squarely within our retail, field workforce mobility, warehousing, logistics and transportation markets and provides a rich opportunity for cross selling as both companies' customer bases are largely complementary. APEX's strong presence in Canada will also fill out our North American geographic service presence in that important growing market. We welcome Don Dalicandro and his talented team to DecisionPoint, and look forward to building significant shareholder value together."

Commenting on the transaction, Mr. Dalicandro stated, "The combination of APEX and DecisionPoint is the fulfillment of a long held strategic objective to find and join forces with a U.S. based platform company to sell and deliver APEX's robust suite of software products across the United States and all of North America. DecisionPoint is just such a partner. During our due diligence process our expectations were more than met in terms of the quality of skills, and the dedication and commitment of the DecisionPoint team to sell and deliver the best possible mission critical solutions to the most demanding companies in the world. This mirrors our own commitment to excellence, and we look

forward to working together with Nic and his team to realize our shared goals."

Maydan Rothblum, a member of DecisionPoint's Board of Directors and Managing Director of Sigma Opportunity Fund II, one of DecisionPoint's largest shareholders, commented, "In addition to the CMAC acquisition completed in 2011, the APEX acquisition is an important next step in DecisionPoint's evolution toward becoming an end-to-end provider of software and professional services targeting the growing enterprise mobility space. Furthermore, the addition of Mr. Dalicandro to the executive management team and board of directors significantly strengthens the company's abilities, knowledge base and experience in the enterprise mobility, wireless application and software and services markets."

Veracap Corporate Finance acted as financial advisor to the vendors and APEX.

For additional information regarding the acquisition, please refer to DecisionPoint's 8-K to be filed with the Securities and Exchange Commission on or before June 8, 2012 and available at www.sec.gov.
