Overview

Juhl Energy is an established leader in the renewable energy industry with a focus on competitive, clean energy solutions and community-based wind power development, ownership and management throughout the United States and Canada. Juhl Energy pioneered community-based wind farms, developing the currently accepted financial, operational and legal structure providing local ownership of medium-to-large scale wind farms in rural America. To date, the Company has completed 23 wind farm projects totaling 240 MW and provides operations management and oversight across the portfolio. Juhl Energy services every aspect of wind farm development from full development and ownership, general consultation, construction management and system operations and maintenance. Juhl Energy also provides a broad range of clean energy solutions.

Juhl Energy operates three primary business segments: renewable energy development, renewable power plant ownership, and energy and field services. Through its Juhl Energy Development Inc. (JEDI) subsidiary, the Company provides medium and large-scale wind, solar, and cogeneration energy development services. The Company holds ownership interests in five wind farm projects comprising approximately 25 MWs of wind power in Minnesota and Iowa, primarily through its subsidiary, Juhl Renewable Assets, Inc. Through its wind farm operations subsidiary, Juhl Energy Services, Inc. (JESI), the Company performs maintenance and management services to over 100 MW of operating wind farms. The acquisition of Power Engineers Collaborative enables the Company to provide a full range of engineering services to the utility industry and for central plant energy systems. The Company also provides full sales and service to smaller, on-site wind and solar projects through its Juhl Renewable Energy Systems division. Juhl leverages the Company's
